- React Native
- AWS, GCP
- Docker, Jenkins
- Git

LANGUAGES

- English (Fluent)

FEATURED PROJECTS

- Real-time Whiteboard Collaboration Canvas
- Network Intrusion Detection System
- Npm

PROFILE

I'm a full stack developer with over 3 years of professional experience crafting high-quality utility & web apps. I design intuitive, engaging user interfaces and build robust back-end systems, seamlessly integrating both to deliver top-notch products. Skilled in problem-solving, testing, and collaboration, I deploy apps on cloud platforms and stay current with industry trends to keep my skills sharp.

WORK EXPERIENCE

INSA, Addis Ababa
Senior Application Software Developer   2022 - PRESENT

- Worked with a team of developers to create new features and improve the performance of antivirus software
- Increased the detection rate of the Antivirus Engine by 30% by conducting research on trending machine learning solution
- Developed and managed a web-based application for controlling subscriptions, enhancing user experience and operational efficiency.

Trip Ways PLC, Addis Ababa
Technical innovation Leader (CTO)   2024 - Present

- Designed and developed the Bus Ticketing System from scratch, managing the entire life-cycle from requirements gathering to deployment, resulting in a fully operational platform used by 2+ stations.
- Integrated role-based access control and station-specific operations, ensuring secure data management and compliance with regulatory standards, reducing administrative overhead by 35%.
- Built a robust Station Management Module, streamlining station operations and reducing ticket processing time by 40%, leading to significantly faster customer service

EDUCATION

Bachelor of Computer Engineering   2016 - 2021
College of Engineering - Addis Ababa Science and Technology University
